

## 1. Dashboard

- Overview of today's cases (assigned, pending, reported)
- Notifications/alerts (urgent studies, revisions requested)
- Quick access to unread studies
- Filters by name, modality, date, referring doctor, etc.

## 2. My Cases

- Patient demographics (ID, name, age, sex )
- Study details (modality, date/time, body part, reason for exam)
- Status (pending, in review, reported)
- Priority tagging
- Advanced filtering and search
- Sort by: Name, modality, referring physician, urgency, etc.

The screenshot displays the 'My Cases' interface in the MEDICALAI application. The top navigation bar includes the MEDICALAI logo, a dropdown menu for 'Medi Care - De...', and an 'Invite to Medical' button. A notification bell icon with a red '1' and a user profile 'Shan Marken' are also visible. The main content area is titled 'My Cases' and shows a search bar with 'smith' entered. Below the search bar are filters for 'Labels', 'Case Manager', 'Members', and 'Institution name'. A 'Last modified' date filter is also present. A table lists two cases, both created on 17/06/2025. The first case is for 'smith' and has one member, Dr. Michael Jude. The second case is also for 'smith' and has one member, Dr. Michael Jude. A notification at the bottom states: 'Last update: Dr. Michael Jude invited you to participate in the case of smith.' The interface includes a sidebar with various icons and a 'New case +' button in the top right corner.
